

# Transaction Journal Report

The Transaction Journal is used to investigate, view, and print specific transactions performed at POS.

### Hints and Tips

- ✓ Use the Electronic Audit Utility (BOS **Tools** menu) if you need to analyse transactions in greater detail. It's also easier to re-print the receipt for an individual transaction.
  - Refer to [BGEN-01c Electronic Audit Utility](#).
  
- ✓ The report lists all transactions details, including:
  - transaction number
  - time of the transaction
  - the till the transaction was processed
  - the operator who processed the transaction
  - the items that were purchased in the transaction.

1.	From the BOS <b>Reports</b> menu, select <b>Security</b> , then <b>Transaction Journal</b> report.																							
2.	Select the required parameters:																							
<table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="text-align: left;">Parameter</th> <th style="text-align: left;">Value</th> <th style="text-align: left;">Result</th> </tr> </thead> <tbody> <tr> <td rowspan="2"><b>Commented Transactions Only</b></td> <td>Blank</td> <td>Data returns for all transactions.</td> </tr> <tr> <td>Y</td> <td>Will only return transactions with POS Comments added (if enabled in POS Config).</td> </tr> <tr> <td><b>End Date</b></td> <td colspan="2">The end date you wish to review till (inclusive); select a date option or type a date as dd/mm/yyyy.</td> </tr> <tr> <td><b>Operator Code</b></td> <td colspan="2">Type the Operator login ID if you want to only show transactions for this operator.</td> </tr> <tr> <td><b>Start Date</b></td> <td colspan="2">The start date you wish to review from; select a date option or type a date as dd/mm/yyyy.</td> </tr> <tr> <td rowspan="2"><b>Till Number</b></td> <td>Blank</td> <td>Data returns for all tills.</td> </tr> <tr> <td>Till Number i.e [1]</td> <td>Will only return transactions from this register.</td> </tr> </tbody> </table>			Parameter	Value	Result	<b>Commented Transactions Only</b>	Blank	Data returns for all transactions.	Y	Will only return transactions with POS Comments added (if enabled in POS Config).	<b>End Date</b>	The end date you wish to review till (inclusive); select a date option or type a date as dd/mm/yyyy.		<b>Operator Code</b>	Type the Operator login ID if you want to only show transactions for this operator.		<b>Start Date</b>	The start date you wish to review from; select a date option or type a date as dd/mm/yyyy.		<b>Till Number</b>	Blank	Data returns for all tills.	Till Number i.e [1]	Will only return transactions from this register.
Parameter	Value	Result																						
<b>Commented Transactions Only</b>	Blank	Data returns for all transactions.																						
	Y	Will only return transactions with POS Comments added (if enabled in POS Config).																						
<b>End Date</b>	The end date you wish to review till (inclusive); select a date option or type a date as dd/mm/yyyy.																							
<b>Operator Code</b>	Type the Operator login ID if you want to only show transactions for this operator.																							
<b>Start Date</b>	The start date you wish to review from; select a date option or type a date as dd/mm/yyyy.																							
<b>Till Number</b>	Blank	Data returns for all tills.																						
	Till Number i.e [1]	Will only return transactions from this register.																						
		↩																						

**Hints and Tips**

✓ The report groups transactions by date, time, till, and operator, and displays products in scanned order.

✓ Use the **search binoculars** to find a specific transaction i.e. enter a stock code, description, or transaction total value.

- Each click of the binoculars will highlight the next match.

✓ To print a specific transaction, take note of the page it's displayed on, so that when you click print you can enter this page number as the print range (you'll have to cut any non-relevant transactions off the printout).

✓ All fields are GST inclusive.

✓ [\*] against the extended **Sale** price indicates that the item attracts GST

✓ **Discounts** no longer display separately, they are reflected in the **Retail** price. This only displays for historical reporting of transactions performed in earlier versions of the software.
